- Our vice as an experienced Gambia Refugee Activist helps his fellow Gambians in ways and how they can get their national documents if needed.

- As part of our goals to set up Education and entrepreneurship in the Gambia, RAISE gives a chance to any Gambia who is living in Germany and would like to go back voluntary back home to have something to do when he arrives.
- We help in raising awareness about possible Integrations in Germany. We share informations, job offers and knowledge through social media platforms
